Case 580B shuttle pump Ok, we investigated the wear on the pump housing and gears yesterday. The housing sidewalls checked out with little to no significant wear. Hi everyone this is my first time posting. I purchased a 580 d a few months for home use and have been changing fluids and filters. yesterday i drained the fluid from shuttle and torque converter dropped shuttle pan and cleaned pan and suction screen, replaced o-ring on suction screen. C-D n early Ks used the Borg shuttle, a self contained unit, Later the Case transaxle, which incorporated the shuttle into the rear end with a simple housing on the bell housing containing the system pump for the shuttle, Earlier had shifter coming through the floor, and the level was checked at the starter where the fill and dipstick is located
