New Realism, New Barbarism Book Description: In this radical and controversial overview of the post-communist world, Boris Kagarlitsky argues that the very success of neo-liberal capitalism has made traditional socialism all the more necessary and feasible. As long as neo-liberalism retains its ideological hegemony, despite its economic failure, the consequence is a 'new barbarism' — already a reality in Eastern Europe, and now also emerging in the West. Kagarlitsky challenges the political neurosis of the left and prevailing assumptions of Marxism to argue that Marx's theories are now more timely than they were in the mid-twentieth century. **New Realism, New Barbarism Socialist Theory in the Era of Globalization** Boris Kagarlitsky Translated by Renfrey Clarke Pluto P Press LONDON • STERLING, VIRGINIA Disclaimer: Some images in the original version of this book are not available for inclusion in the eBook. **New Realism, New Barbarism: Socialist Theory in the Era of Globalization (Recasting Marxism)** [Boris Kagarlitsky] on Amazon.com. *FREE* shipping on qualifying offers.
