

Download Standards Of Investment Protection

International labour standards have grown into a comprehensive system of instruments on work and social policy, backed by a supervisory system designed to address all sorts of problems in their application at the national level. Legislation is available in different versions: Latest Available (revised): The latest available updated version of the legislation incorporating changes made by subsequent legislation and applied by our editorial team. Our staff can't provide legal advice, interpret the law or conduct research. You may be able to obtain assistance from a lawyer or paralegal. The purpose of the Standards is to establish basic requirements for protection against the risks associated with exposure to ionizing radiation and for the safety of radiation sources that may deliver such exposure. The Standards have been developed from widely accepted radiation protection and, Standards Of Investment Protection.
