Roughly? - Answered by a verified HVAC TechnicianI have a trane xl1200 heat pump that is immediately tripping the 40/amp breaker as soon as it is switched on. I have checked the start and run caps (this unit has them as a factory option and I have the fan off its own when that failed a couple yrs ago) with a cap test on a fluke and they match the correct values., Trane Air Conditioning Xe 100 Manual.
