Madeleine Leininger's Contribution to Nursing Theory: Transcultural Nursing Madeleine Leininger's theory of Transcultural Nursing, also known as Culture Care Theory, falls under both the category of a specialty, as well as a general practice area. Madeleine Leininger : Cultural Care Diversity and Universality Theory (Notes on Nursing Theories) Leininger's theory defines care as the essence and dominant domain of nursing, and is unique in suggesting that patient need and the resulting intervention should be determined by culture and lifestyle. Annotated Bibliography Inventory for Assessing the Process of Cultural Competence Among Healthcare Professionals-Revised (IAPCC-R©) – Developed by Campinha-Bacote (2002), the IAPCC-R© is designed to measure the level of cultural competence among healthcare professionals and graduate students in the allied health fields. It is specifically intended for the following healthcare clinicians ... Cultural history combines the approaches of anthropology and history to look at popular cultural traditions and cultural interpretations of historical experience. It examines the records and narrative descriptions of past matter, encompassing the continuum of events (occurring in succession and leading from the past to the present and even into the future) pertaining to a culture.
