This isn't really a crossover. All three of the X-Men books just had Apocalypse related stories at the same time. I suggest getting the individual X-Men books instead as 2 of them have additional issues. Description. The All-New X-Men continue to chart their own path through a world that hates and fears them! And they live in the shadow of their fate - especially Cyclops, whose adult self's actions are notorious. Apocalypse Wars has three parts. The first comes amidst the mutant-Inhuman war. The story starts with a brand new group of X-Men going to investigate new mutants emerging after none had been born for years due to the Inhumans only to get zapped into the future.
